Description of the park

Introduction

Introduction

The elemental intention of the Business incubator Kunovice – Panský dvůr was an attempt to support start-ups and innovative businesses in our region. An implementation of the project started in August 2009 and had carried out in twelve stages. An operation of the Business incubator Kunovice – Panský dvůr was launched in September 2011. The successful implementation of the project has managed to originate a base for about 30 companies. Last but not least, the project saved an immovable cultural monument which thereby became a dominant feature of Kunovice town. In order to operate and administrate the building of the Business incubator Kunovice – Panský dvůr, a business company was established. The PIK-PD s. r. o. meets the requirements of owners; especially the company searches for actively takers for commercial premises, rent of advertising spaces, development of services in the field of education, organization of courses and workshops. The company searches actively and implement other projects and reaches conditions of incubation agreements, property management and protection of property.

Advisory services

Consulting services are offered to start-up businesses. These services are mainly the elaboration of business plans, analysis of the economy of the future company, marketing strategies, connection with potential investors.

Innovation infrastructure

Within the innovation infrastructure, a new platform ZLINNOVATION was established, which brings together major companies from the Zlín Region. The collaborative platform of the innovation ecosystem of the Zlín Region offers a range of services that are offered across the business environment of the region. It is a new form of cooperation and exchange of experience, sharing of results and, last but not least, provision of services.

Cooperation with universities

Cooperation with VŠCHT Prague, VUT Brno, Akademie STING Brno and UTB Zlín. The work with students takes place within the framework of the competition My First Million and the Innovation Companies of the Zlín Region. In future years we will offer mediation of cooperation between students and companies in the preparation of bachelor and diploma theses, exhibitions and Open Days. Within the framework of the Innovation Infrastructure of the Zlín Region, professional seminars for students are being prepared.
